

Dear Legislators of CT,

Good morning. I vote yes to pass SB 284 to expand healthcare benefits to immigrants. Remember that we are a country of immigrants from many countries and that our society is made up of first, second and third generations coming from immigration. Access to adequate healthcare is a basic human right.

Please pass this bill and guarantee access to healthcare for immigrants and other marginalized individuals and families.

Thank you for your time and consideration in this matter,

Brenda L Buchbinder, LCSW
